

StudentsXpress PUT YOUR HEART INTO IT

Write about a time you put your whole heart into it (a project, a sport, a game, anything). What did this feel like? What were the results?

When you don't feel like doing something, how do you motivate yourself to put your whole heart into it?

Who do you know that is a good role model for always doing their best and trying their hardest? How has this person inspired you to do the same?

Draw a picture of something you accomplished because you did something you loved and you did your best.

Put your heart into a drawing that can inspire others to do their best.

Please turn in your submissions to your teacher
