Let's Get Along

-from our 3rd - 5th grade programming.

This course helps students explore proper and effective communication. It ends with the class creating a Get Along Handshake to use when students don't get along. What would YOUR get along handshake look like?

PROMPTS FOR STUDENTS

Imagine two kids who don't agree about something.

Draw or write what they do next to solve the problem peacefully.

What does "getting along" look like to you?

Draw a picture or write a few sentences showing kids working things out.

If your feelings could talk, what would they say during a disagreement?

Draw or write what helps them calm down.

Create a poster with one rule for getting along.

Draw it and add a short sentence explaining why it matters.

Finish this sentence with a picture or words:

"When I'm upset, a good way to handle it is..."

Draw two people using words instead of yelling.

What are they saying to solve the problem?

Create a character called "The Peacemaker."

What tools or moves do they use to help others get along?

What advice would you give to a new student about getting along with others?

Draw or write your best tip.
